

Mass. pharmacy recalling some compounded products

March 25 2013, by Bob Salsberg

(AP)—A Massachusetts pharmacy has issued a voluntary recall of some sterile compounding products.

Pallimed Solutions Inc., of Woburn, said Monday the recall was a precautionary measure and there were no reports of any illnesses. It says it issued the recall after a recent unannounced inspection by state and federal regulators.

A person familiar with the investigation told The Associated Press that officials are analyzing a foreign substance that was visible in several vials. The person spoke on condition of [anonymity](#) because the investigation is ongoing.

The company says the recalled products were prepared for fewer than 800 patients and the recall doesn't involve any other product.

The state stepped up inspections of compounding pharmacies after a deadly fungal [meningitis outbreak](#) was linked to a steroid produced at a different pharmacy.
