

Low vitamin D linked to dry eye syndromes

February 10 2016

(HealthDay)—Vitamin D deficiency is associated with dry eye and impaired tear function, according to a study published in the January issue of the *International Journal of Rheumatic Diseases*.

Pelin Yildirim, M.D., from the Kocaeli Derince Training and Research Hospital in Turkey, and colleagues evaluated 50 [premenopausal women](#) with vitamin D deficiency (serum vitamin D levels
