

Treated diabetic retinopathy rare in children with T1DM

October 19 2016

(HealthDay)—Treated diabetic retinopathy (DR) is extremely rare

among children with type 1 diabetes, according to research published online Oct. 7 in *Diabetes Care*.

Giovanna Beauchamp, M.D., from the University of Florida in Gainesville, and [colleagues](#) used data from the T1D Exchange Clinic Registry to examine how often treatable DR was reported among [young people](#). Information was collected about treatment for DR for 12,535 patients aged
