

## **Risk of ESRD in T1DM patients has fallen markedly in finland**

December 27 2017

---

(HealthDay)—The cumulative risk of end-stage renal disease (ESRD)

among patients with type 1 diabetes has declined over time in Finland, according to a study published online Dec. 20 in *Diabetes Care*.

Jaakko Helve, M.D., from the University of Helsinki in Finland, and [colleagues](#) analyzed data from all patients
