

Seven best diagnostic criteria ID'd for childhood psoriasis

October 27 2021

(HealthDay)—Seven diagnostic criteria provide good discriminatory

ability for childhood psoriasis, according to a study published online Sept. 3 in the *British Journal of Dermatology*.

Esther Burden-The, B.M.B.S., from the University of Nottingham in the United Kingdom, and colleagues assessed the [accuracy](#) of previously agreed-upon consensus criteria for psoriasis diagnosis in [children](#) (
