

# Pandemic distress may affect fetal brain development, small study finds

May 27 2022

Scatter plots with exponential fits of brain tissue volumes vs. gestational age. a Cortical gray matter (CGM); b White matter (WM); c Cerebellum; d Deep gray matter (DGM); e Brainstem; f Hippocampus. The p-values are the main effects of pandemic vs. pre-pandemic on brain tissue volumes while controlling for gestational age at MRI and fetal sex. Bold p: p
