

Inhibition of stimulator of interferon genes protects against myocardial ischemia-reperfusion injury in diabetic mice

May 9 2023

Diabetes Aggravates STING-Mediated Inflammation in Hearts. (A) Expression of STING, p-IRF3, TNF- α , and IL-1 β , measured by western blotting. (B, C) Greater expression of STING and p-IRF3 in the D-I/R group than the I/R group.

(D) Expression of p-IRF3, measured by immunofluorescence assays. (E, F) Greater expression of TNF- α and IL-1 β in the D-I/R group than the I/R group. (G) Greater mRNA expression of IFN β in the D-I/R group than the I/R group. Data are expressed as means \pm SD, n=4. *P
