Marijuana component offers opioid alternative by effectively treating dental pain

November 15 2023, by Andrew Smith

CBD reduced the dental pain and increased the bite force in patients presented with emergency toothache. (A) Median visual analog scale (VAS) pain scores per time point for all groups. Arrows indicate the onset of significant pain score differences from baseline (BL) for the cannabidiol (CBD) groups. Asterisks depict significant differences from the placebo group. Mixed-model analysis, “time point” ($P$
