

Exposing hiding lymphoma cells to the immune system

February 12 2024

A KZFP gene cluster as poor prognosis predictor in DLBCL. A, Volcano plot of HRs issued from univariate Cox regression analysis correlating individual gene expression with patient survival outcome are plotted against significance ($n = 612$ DLBCL RNA-seq with available survival data). The vertical dashed line indicates the threshold of significance (FDR 1) and reduced risk (
