

New study highlights importance of targeting unchanging parts of COVID-19 virus

September 9 2024

Corewell Health COVID-19 sequencing data. (A) Sequencing statistics for samples analyzed at Corewell Health using Illumina chemistry. (B) SARS-CoV-2 genotypes per month from December 2021 through December 2023. The “*” indicates months with further processing in panel D. (C) Correlation analysis of the Pangolin annotation each month from the USA (with
